Languages Java, Kotlin, C++, C, Python, Bash, Dart, Scheme, Go, Web (HTML + CSS, JS, PHP), and SQL
Tools Git, Android, Retrofit, Dagger, Firebase, Flutter, Postman, AWS, Node.js, and Google Cloud

EXPERIENCE

Android Developer Intern, Ceridian Dayforce

May - Sep 2020

- Improved **TalkBack**, **Switch Access**, and **VoiceOver** support by spearheading shift to accessible design.
- **Increased speed** by 20% and reduced **network load** by implementing **paginated suggestions** for fields by creating a reusable SuggestionsAdapter extending BaseAdapter.
- Reduced steps required to launch a user's favorite widgets by **60%** by adding app shortcuts.
- Redesigned the **entire login experience** by supporting dark mode and material widgets using themes.

Full-stack Developer Intern, AYORents

Jul - Sep 2019

- Reduced data fetching and processing time by **30%** by adding MongoDB aggregation pipelines on the client.
- Implemented **reusable widgets** for the cross-platform mobile application using Dart and XML.

Mobile Developer, Bharosa and Company

Apr - May 2019

- Architected a fully **paperless invoice and client management** mechanism for Android using Firebase.
- Accelerated invoice creation and distribution by **70%** via automation and implementing it as a one-click mechanism for frequent clients.

PROJECTS

PostX Generate shareable image posts from text. Made entirely in Native Android using Kotlin.
Peeku A short-video sharing platform with feed curation based on sub-feeds. Made in Flutter.
Habitus A mobile app to help people track, build, and crowd-source habits. Built using Flutter, Java, Firebase, and Cloud functions.
Practikality A three-tier Android app to assist the differently-abled through novel services, Built for Native Android with TTS, Watson, Azure, and Google Cloud.

ACHIEVEMENTS

- **Prize Winner** at DeltaHacks VI, McMaster University for building a blockchain Android application.
- **World Finalist** for **Microsoft Imagine Cup** at Microsoft HQ, WA on an all-expense-paid trip for my native Android application 'Practikality'.
- **Grand Prize Winner** in **Google Code-in** and invited to Google HQ, CA for completing 71 tasks covering different domains of development for an open-source organization.
